Description

If you've been trying to find a home big enough to grow into without stretching your budget, this is your shot. This 4 bedroom, 2 bath home comes with an additional bathroom in the basement. Instant equity for the buyer willing to complete it. The layout gives you space where it matters, and the partially finished basement opens the door to serious flexibility. It could easily function as separate living quarters, perfect for extended family, guests, or even future rental potential. First-time buyers, this is how you get ahead. You're not just buying bedrooms. You're buying options. The fully fenced backyard is ready for pets, kids, or weekend cookouts without worrying about privacy. It includes a new storage shed. There's also plenty of parking, so no one is fighting for space when friends and family come over. At this price point, finding four bedrooms, basement potential, a fenced yard, and room to build equity is rare. The updates you choose to make will only add value over time.
