## Description

285 Greystone Road

Lovingly maintained and meticulously kept, this three-bedroom, one-bath home offers 1,529 square feet on the main level and sits on 9.6+ breathtaking acres. The kitchen features charming knotty pine walls with matching cabinetry, flowing into an open-concept layout that includes a spacious living room and large picture window overlooking the front of the property.

The home showcases wood trim and baseboards around the doorways, replacement windows throughout, a newer roof, and a new hot water heater—plus consistently low utility costs. The primary bedroom includes built-ins for convenient storage, and there are oak hardwood floors beneath the carpet across the main level. The bathroom has been updated with new tile and a modern shower.

A full, unfinished basement with a concrete floor provides abundant storage and includes a drive-under garage. Outside, enjoy a welcoming front porch, two asphalt driveways (one on each end of the home), a barn, and a garden area.

The 10-acre tract offers 682 feet of road frontage and a beautiful blend of cleared and wooded land—potentially subdividable if desired. A private trail leads to the property's most remarkable feature: unmatched, truly breathtaking mountain views.

Come take a look and experience all this exceptional property has to offer.
