Description

NEW CONSTRUCTION HOME - Step into a home that blends thoughtful design, quality craftsmanship, and everyday comfort. This new construction home from Wilson Home Builders is built with quality from the ground up. The exterior features superior-quality smart siding designed for enhanced soundproofing and insulation, while a charming front porch with a ceiling fan creates the perfect spot to unwind on warm summer evenings. The driveway offers an additional parking space, and the downspout drainage is installed in durable hard piping rather than corrugated material, reflecting the attention to long-term durability throughout the home.

Inside, a bright and open floor plan creates an inviting atmosphere, complemented by stainless steel appliances and elevated finishes throughout. These include higher-grade granite surfaces, upgraded lighting fixtures, designer door hardware, and a ceramic double kitchen sink that adds both style and functionality. The primary bedroom features a striking shiplap accent wall, adding warmth and character to the space.

The primary bathroom is designed for comfort and luxury, offering an extra-large step-in shower with upgraded designer tile and fixtures, a spacious double vanity with separate medicine cabinets, and an enclosed toilet area. The primary closet includes a convenient accessory cabinet for additional organization. Secondary bedrooms feature spacious closets, while the family bathroom is finished with designer tile and a beautifully tiled tub surround.

A well-appointed laundry room includes a utility sink, granite countertops, and ample cabinet storage to keep everything neatly organized. The garage is thoughtfully designed with separate roll-up doors and a side entry door for added convenience. Out back, a spacious rear deck with Trex maintenance-free decking provides an ideal space for outdoor entertaining or relaxing without the worry of ongoing upkeep.

This home offers a rare combination of style, comfort, and quality details that truly set it apart. NOTE: Owner/Agent. Some exterior photographs have been digitally enhanced to show grass.
