A two-story handcrafted metal staircase with cedar treads connects each level, and three dual-fuel HVAC units and two on-demand gas water heaters ensure optimal climate control and efficiency.

On the lower level, a walkout basement provides added flexibility with a large family room, two bonus rooms, reclaimed barn metal ceilings, carpeted flooring, and a covered concrete patio that opens to the surrounding landscape.

Above the detached garage, a fully independent guest apartment enhances the property's versatility and value.
