Positioned at the intersection of heritage for profitability, this exceptional offering presents a rare opportunity to acquire a family-owned business with a proven track record dating back to the early 1900s. This established destination property blends historic character with modern investment upside, making it highly attractive for both owner-operators and portfolio investors seeking stable income with growth potential.

Strategically located in a thriving countryside corridor, the property benefits from consistent traffic driven by surrounding agritourism and event-based demand, including nearby lavender farms, tree nurseries, local honey producers, and the well-known Briggs Brother Ranch--an increasingly popular venue for upscale weddings and conferences. This synergy creates a built-in customer base and recurring revenue opportunities. The existing operation offers immediate cash flow with strong community loyalty, while also presenting multiple avenues for revenue expansion and value-add improvements. Current infrastructure supports catering services, and the kitchen layout allows for efficient upgrades to accommodate menu diversification or a rebranded culinary concept targeting higher-margin offerings.

The property includes a high-visibility corner parcel with additional improvements, including a detached garage and approximately 360 square feet of flexible space--ideal for storage, prep expansion, or conversion to on-site living quarters for management or staff. Scenic views of the Meadow Creek Mountains further enhance the property's appeal as a destination-driven business.
