Description

This 25.97 acre property is totally private and totally wooded with very large majestic hardwood trees but excellent building sites are available on gently sloped land amidst the trees. One homesite has been approved for a septic system

but getting a septic permit for a home is virtually certain and can be verified by applying for a septic permit. Deer and turkey are abundant on the property and a small pond on the north end of the property needs some care but a deer highway is near that water source so little doubt that the pond is fed by an underground spring. A roadway goes thru the property and ends at the pond and a 4 wheel drive truck is recommended or a high rising SUV. Walking the roadway is easy and building sites are visible on the left side of the roadway. Information deemed reliable but not guaranteed. Buyer/buyer's agent to verify all information.
