Description

This stunning 10-acre property is a rare find. Nestled on the land is a breathtaking tiny house crafted with restored boards reclaimed from a historic 100-year-old home, a true one-of-a-kind feature that blends character and charm. While not yet finished, it already has running water and temporary electric in place.

Also on the property is a spacious 3,000 sq. ft. building with a large loft, perfect for storage, a workshop, or future conversion. The entryway to the property makes a beautiful first impression.

Whether you're a hunter, a homesteader, or simply looking for the perfect place to build your dream home, this property

checks every box. It has passed a perc test but does not have a septic tank, has water run to the property, and temporary electric already in place, making it ideal for parking an RV while you build.

The front of the property offers a gorgeous home site, while the tiny house would make a perfect mother-in-law suite or private cottage.

Properties like this don't last. Come see it today!
