Description

Welcome to 777 Bailey Lane, a truly one-of-a-kind riverfront retreat nestled on approximately 8.189 acres along the scenic Nolichucky River in Erwin, Tennessee. With over 800 feet of river frontage, breathtaking mountain views, direct access to

a Class II+ rapid, and a home situated outside the designated flood hazard area according to the survey, this property offers a rare opportunity to own a private outdoor paradise with endless possibilities.

Perched overlooking the infamous "Radio Wave," you'll enjoy a front-row seat to one of the Nolichucky's most iconic stretches. Relax on the expansive covered deck, soak in the conveying hot tub, and watch whitewater enthusiasts navigate the rapids while listening to the soothing sounds of the river below. Whether you're seeking a private residence, mini-farm, mountain retreat, campground, wedding venue, or investment opportunity, this property offers tremendous potential.

Originally custom-built in 2011 and relocated to its current site in 2025, the home blends rustic charm with modern updates. Freshly repainted in June 2026, the home features vaulted Canadian Hemlock ceilings and a dramatic two-and-a-half-story wall of windows showcasing the surrounding mountain views. Enjoy spectacular sunsets from the living room or cozy winter evenings beside the Jotul wood stove.

The open-concept floor plan centers around a chef's kitchen featuring custom maple cabinetry, quartz countertops, and a large island. The home offers approximately 1,158 finished square feet on the main level, 1,158 square feet in the heated and cooled basement, and an additional 690 square feet on the second floor. The flexible layout can function as either a 2-bedroom or 3-bedroom home and includes 2 full bathrooms.

Extensive updates completed in 2025 and 2026 include mostly new appliances, windows, HVAC units, fresh paint, and more. The home is also equipped with solar panels for added efficiency, although the inverter will need replacement. Additional outdoor improvements include a fenced raised-bed garden, cedar greenhouse with double-paned plexiglass, woodshed stocked with split firewood, and more than 400 recently planted trees including sycamores, oaks, bald cypress, river birch, and white pines.

One of the property's most desirable features is that while it enjoys incredible river frontage and recreation opportunities, the home itself is located outside the designated flood hazard area according to the survey. This rare combination allows owners to enjoy riverfront living with added peace of mind.

The lower riverfront portion of the property offers exceptional development potential and already includes underground power and a concrete slab suitable for an RV, private camper setup, glamping site, event venue, or future riverfront cabin. With level river frontage, existing infrastructure, and stunning scenery, this area would make an excellent campground, wedding venue, retreat center, or income-producing investment.

Located outside the city limits, the property offers privacy and freedom while still enjoying Erwin Utilities water, power, and fiber optic internet. Properties with this much river frontage, usable land, existing infrastructure, mountain views, and a residence outside the flood zone rarely become available. Come experience the beauty, tranquility, and endless possibilities that only life on the Nolichucky River can provide.
