Description

Gorgeous craftsman style home in a country setting minutes from Downtown Elizabethton! In a word this property is an experience, complete with a couple of streams running through the property. This spacious home (much larger than it appears from the outside) on 1.3 level acres with a terraced effect toward the creek in back this sprawling 5 bedroom, 3 bath home has been updated throughout to modernize for comfort while preserving its original character.

Every inch of the interior has been refreshed: hardwood floors, fresh paint, new lighting, fully redone baths, new stainless appliances, and updated windows that bring the natural beauty of the surroundings right inside. The main level offers spacious, comfortable rooms, while the upper level provides storage galore. A new side-entry deck connects the parking

and garage area to the home, and the double detached garage is a wonderful asset to the property!

This is a home you need to see to truly appreciate. Pictures tell part of the story, but the space, the setting, and the character have to be experienced in person. And with downtown Elizabethton's shopping and dining just minutes away, you get privacy and convenience in one package!
