Description

Renovated 3 bedroom home sitting on a lot with the mountain views most people move to this area for and never actually get. Deep green cabinets, butcher block counters, brass hardware, and all new stainless steel appliances. STEEP

DRIVEWAY

Swiss coffee walls run through the entire house, so every room feels bright and open instead of cold and flipped. Brand new flooring throughout. The original fireplace was kept in the living room and anchors the whole space, giving the home character that new construction in this price range simply does not have. Ceiling fans in every bedroom. Minisplit is brand new and has dehumidifying settings to help with that TN Humidity.

Full unfinished basement gives you real options right now and real equity later. Use it today as storage, a workshop, a home gym, or a playroom. Finish it out down the road and add legitimate square footage to the house without ever touching the footprint.
