One-of-a-kind, one-level living in the heart of Fair Acres!

Set on just under an acre, this sprawling ranch offers an incredible combination of character, space, privacy, and outdoor living. With 3 spacious bedrooms, 2.5 bathrooms, and over 3,500 square feet, this home has been thoughtfully updated while preserving the special details that make it truly unique.

The updated kitchen beautifully blends old and new, intentionally retaining the home's original metal cabinetry while incorporating thoughtful modern touches. Generous living spaces flow throughout the home, including a spacious living room, dining and a gorgeous sunroom overlooking the pool--the perfect spot to enjoy your morning coffee or unwind at the end of the day.

Outside is where this property truly shines. The private pool, included hot tub, and expansive outdoor entertaining area create a backyard retreat within city limits, while the just-under-an-acre setting provides wonderful privacy and room to enjoy. The property also offers a three-car garage, including a two-car attached garage and a separate one-car detached garage.

Additional rooms to note include a finished attic serving as a playroom, a laundry/mudroom off the garage and a dedicated exercise space.

Homes with this much character, space, and single-level living are hard to find--especially in sought-after Fair Acres. With a finished attic playroom, exceptional outdoor amenities, and rare three-car garage setup, this is a truly special property that has to be experienced in person.
