Description

Recent appraisal was $644,000. POOL!! HOT TUB!!! This like-new, 3-year-old home truly has it all--a fantastic floor plan, beautiful setting, and an incredible outdoor living space. Quality built by Tucker Home Builders, this home is filled with thoughtful upgrades and details throughout.

Inside, you'll find 9- and 10-foot ceilings, beautiful coffered ceilings, luxury vinyl and tile flooring, and a desirable split-bedroom floor plan. The spacious kitchen features an eating bar with seating for five and a huge walk-in pantry. The primary suite offers two walk-in closets with custom closet systems and a beautiful soaking tub. There is also a dedicated office that could easily serve as a small additional bedroom, plus a built-in safe.

A separate attached third-car garage provides excellent space for a workshop, hobby area, or additional storage.

As impressive as the interior is, the outdoor living space may be your favorite part of the home. A large covered Trex deck overlooks peaceful views of a small pond, pasture, and mountains. Step down to a beautiful paver patio with a hardly used hot tub, then continue to the pool area featuring a high-end fiberglass pool with a rock waterfall, tanning ledge, and electric heat pump for extended seasonal enjoyment.

The fully fenced backyard includes two double gates and offers a wonderful combination of privacy, views, and space for entertaining.

The sellers are currently building and will likely require a closing date between mid-November and mid-December. The lilac, small fir, and small birch trees do not convey. No showings before noon.
