Information deemed reliable but not guaranteed.

Offering 3 bedrooms, 2.5 baths, 1,856 finished square feet, plus approximately 752 square feet of unfinished basement and storage space, this Bristol townhome-style condo delivers an uncommon amount of space and flexibility for the price.

The main-level primary suite is privately positioned in its own wing with no living area above it and features a full bath, walk-in closet, and private balcony. Combined with two additional bedrooms, another full bath, laundry area, and a second private balcony upstairs, the layout offers excellent flexibility for multigenerational living, guests, home offices, or simply having separate spaces under one roof.

The main level also includes a spacious living and dining area, kitchen, half bath, and convenient access to the attached garage. Downstairs, the unfinished basement provides approximately 752 additional square feet for storage, a workshop, hobbies, or future possibilities.

Set on a quiet hilltop near Exit 5, the home offers convenient access to shopping, dining, medical services, downtown Bristol, and the many attractions of the surrounding area.

Move-in ready today with plenty of opportunity to personalize over time, this property combines the ease of townhome living with the space and versatility buyers often have to look to a much larger home to find.

If you have been searching for main-level living, room for multiple generations, substantial storage, an attached garage, and a convenient Bristol location, 153 Woodcrest Lane deserves a closer look.
