Description

A Place to Unwind, Room to Entertain, and a River to Enjoy

Would you love to have a place where you can get away from it all?

Imagine a property where peaceful surroundings, the sounds of flowing water, and opportunities to enjoy the outdoors come together. With a river running alongside the property and a creek bordering the front, nature is an integral part of this unique setting. Better yet, accessible river frontage invites you to walk down to the water, find a peaceful spot to sit, cast a fishing line, or simply enjoy the moment.

Whether you're hosting an outdoor barbecue, gathering with friends and family around a firepit, or enjoying a game of pool, this property offers plenty of room to relax, entertain, and make memories.

The main residence is anything but cookie-cutter. This distinctive three-level home features 4 bedrooms and 3 bathrooms and was designed with low maintenance in mind. Natural materials, including river rock and birch wood, blend with unique architectural details and remnants of the past to create a home with warmth, personality, and a style all its own.

And there's more! A second, updated manufactured home provides an incredible opportunity for extended family, visiting guests, or potential rental income. Featuring 3 bedrooms, 2 bathrooms, and a front deck overlooking a gorgeous mountain setting, this additional residence adds even more versatility to the property.

Two homes, river frontage, a creek, and plenty of room to enjoy the things that matter most. Whether you're looking for a private retreat, a place for multigenerational living, or a property with income potential, this one deserves your attention.
