Description

Driveway and landscaping are in progress and expected to be complete before the end of November.

A single-level home designed, not just built. Four minutes from downtown Jonesborough in the Farmstead Subdivision, this new construction house was made for the buyer who wants a custom home but doesn't have the time or energy to navigate that process.

Wide-plank Stuga floors run through the main living spaces. Large windows bring in light and countryside views. The kitchen is built around floor-to-ceiling slim shaker cabinetry and a custom "hand made" range hood in a Roman clay finish, with brass fixtures and designer lighting throughout. The living room centers on a custom fireplace finished in the same Roman clay. A walk-in pantry holds a beverage cooler, and the refrigerator is included.

The plan offers three bedrooms, a flex room (for an office or guest space), and two and a half baths. A dedicated laundry room, a 2-car garage and a large covered rear patio complete the plan, along with a covered front porch on a 0.44-acre lot.

Every finish was intentionally selected for a cohesive design. See it in person!
